Don't forget our
events on
April 29th, 2017

In today's world virtually anything can be found on the internet including books, but there still remains a fascination with rare and old books. An antiquarian of books our speaker will be sharing his knowledge and passion of books, whether they be first editions or rare collectibles.

CIM Hamilton Chapter is proud to present: H.Ian Meldrum B.A. (honours) M.Ed. On May 18, 2017.

Born in Ottawa 1943, I lived in Brampton 1946-1049. My family and I moved to Perry Sound where I grew up on the shores of Georgian Bay and attended elementary and secondary school. I began curling in 1956 and have curled for 61 years. After graduating from Hamilton Teacher's College in 1964, I began teaching at Rousseau Public School in Ancaster. In September 1966, I entered McMaster University in the faculty of Geography and graduated in 1971. I began teaching at Nelson High School in Burlington where I taught grade nine Canadian Geography. In later years I, also, taught grade ten History. I retired in June 2000 with thirty-five years invested in the Teacher's Pension Plan. After retirement I worked part-time for the Wine Rack and became a certified Wine Merchant.

Married in 1971, my wife Dianne and I had three children: Colin, Scott, and Heather. The latter two presently teaching elementary school.

My current library contains fifteen (15, 000) volumes.
